

**PUBLIC NOTICE  
TO  
PLEASANTVILLE WATER DISTRICT  
CONSUMERS**

Starting Monday July 25<sup>th</sup> 2011 and ending Friday July 29<sup>th</sup> 2011 the Pleasantville Water Department will be flushing water mains / hydrants between the hours of 12 a.m. and 2 p.m.

Flushing water mains removes accumulated sediment and improves the quality of the water. This operation may cause a decrease in pressure and some discoloration of the water, but it is still safe for human consumption. Run your water to help clear the discoloration. The discoloration may remain for several hours after flushing. Consumers are advised to refrain from washing clothes while flushing is in progress. Please allow the water the opportunity to clear. It is suggested that laundry and related activities be scheduled for later in the evening.

We regret any inconvenience, as this is a necessary maintenance and safety requirement. We are doing everything we can to minimize any problems. Please check the bulletin board located in the park next to the R.R. Station at Wheeler Ave and Manville Rd, or the scroll on PCTV for hydrant flushing schedule. Please also be aware that the hydrant flushing may very well impact the surrounding neighborhood in addition to the streets that are listed.

For further information please call the Village of Pleasantville Water Department at 769-3883.
