

BLOTTER SUMMARY

September 5 through September 11, 2022

The Blotter reports below represent a selection of reports made between the dates above.

***PLEASE NOTE: Animal complaints regarding raccoons that appeared to be rabid continued into a second week. The Pleasantville Police Department has been in communication with the Department of Environmental Conservation to address any underlying issues that may be circulating within our animal population. At this time, DEC officials have stated the evidence points to an outbreak of distemper, which is not transmittable to humans, and one of the animals involved has been secured for testing. However, contact with wild animals should still be avoided and care should still be taken around any animal, especially one that is showing signs of illness or impaired mobility and / or motor control. ***
